

1 - Colorier les parties que L'on voit selon le sens de la flèche.

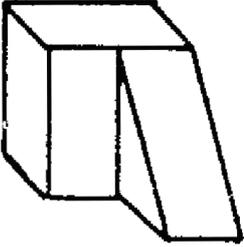

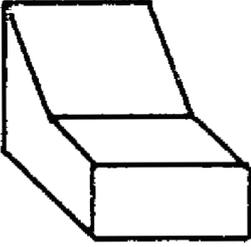

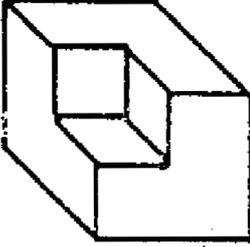

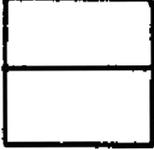

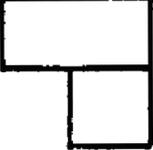

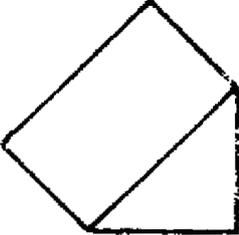

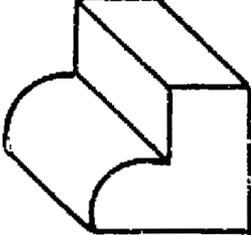

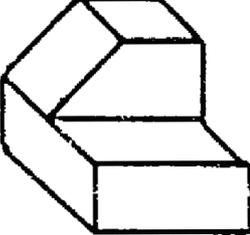

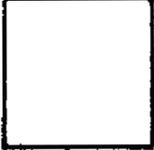

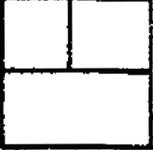

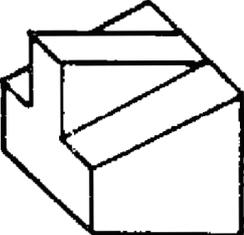

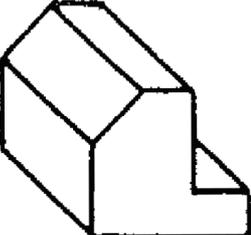

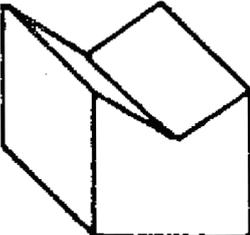

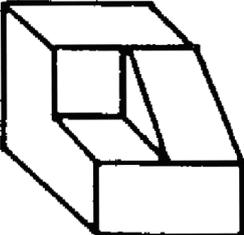

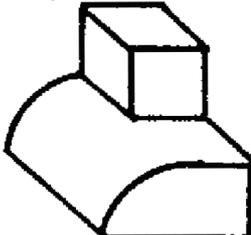

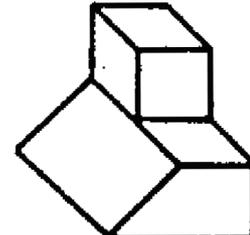

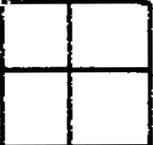

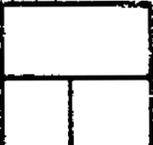

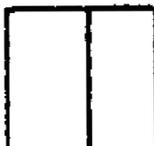

2 - Chercher dans les vues de la partie droite la vue correspondante et noter son repère (lettre + chiffre).

3 - Ecrire dans le rectangle prévu, le repère correspondant à la vue en perspective. La première vue en haut à gauche est déjà remplie, elle te sert d'exemple.

4 - Procéder de même pour chaque vue.
